Dear Jim,

Recently I wrote you on a hunch, to ask if you recall any suggestion of Percy Foreman's connections with organized crime and to be alert for such indications.

I have just seen the new Marboro remainer catalogue. Its comment of "King of the Vourtroom" (enclosed). It says that among his clients have been "Mafia Kingpins".

Prior to this I'd asked a young friend in NYC to try and locate a paperback copy. I've now asked him to get me this, so I will not need a copy. I'll read it with some interest.

Perhaps, when you read F-U, you'll understand some of the basis for this hunch. I now have more reason for this interest.

If it is valid, it complicates things rather than simplifying them.

Sincerely,
